

BigPolicyCanvas

Transforming policy making through Big Data and Open Innovation

Mission

Big Policy Canvas will foster collaboration among public sector, enterprises, citizens and researchers and will offer the appropriate knowledge base, research directions and recommendations towards building a more effective, efficient, precise and evidence-based public sector, promoting transparency and restoring trust to public sector structures.

Big Policy Canvas Concept and Approach

Big Policy Canvas aims at renovating the public sector on a cross-border level by developing a Roadmap that will enable public administrations improve their readiness with regard to the integration of Big Data for the achievement of informed, evidence-based policy making in highly important application fields. The project approach for delivering its Roadmap will be based upon the following four major streams of activities:

- Community Building and Networking
- Knowledge Collection and Analysis
- Big Policy Canvas' Innovation Offering and Roadmapping
- Awareness Creation and Sustainability

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 769623
